Wylie, TX

---

## Experience

**Hospitality Associate and Mixologist**

BlueFin Sushi And Bar

January 2021 - Current

Wylie, TX

- Worked with a point-of-sales system for inputting orders and handling customer transactions.
- Delivered high quality customer service in a fast paced setting, effectively managing multiple tables and responsibilities.
- Handled all bar operations such as inventory, preparation, and drink creations.
- Developed strong problem solving skills and teamwork by handling front-of-house operations and addressing customer needs.

**Manager**

Cafe Boba

September 2024 - Jan 2025

Princeton, TX

- Oversee daily store operations, including opening and closing procedures.
- Prepare and reconcile cash drawers to ensure accuracy and readiness for the day.
- Maintain high standards of product quality and customer satisfaction.
- Ensure employees adhere to the company's mission, policies, and operational standards.

## Academic Projects

**Software Development Final Project**

*Review App - A team-based web application for submitting and displaying user reviews.*

- Collaborated with other development students in a group effort to bring together the application.
- Handled operations and tasks in the front-end sector, working with frameworks such as react.
- Collaborated closely with back-end developers to integrate RESTful API calls and display dynamic data.
- Utilized GitHub for version control, managing branches and resolving merge conflicts effectively.
- Collaborated in an Agile development team, using sprints and regular code reviews to deliver front-end features in React.
